

XPS production line

1. Extrusion feeding system

2. TDS85 twin screw extruder

3. Screen exchanger and melt adaptor

4. TDD200R cooling extruder

5. Dosing unit for SCF CO2

6. Dosing unit for HFC/DME or blends

7. Dosing unit for ethanol

8. CO2 booster pump and interim-cooling vessel

9. Static mixer and Die

10. Liquid heating/cooling units

11. Central control station

12. Calibrator

13. Take-off rollers

14. Passive cooling rollers

15. Active separating rollers and conveyors

16. Puller and edge cut hogging units

17. Surface planner and groover

18. Main cut-off unit

19. Length-side milling section

20. End-trim milling section

21. Stacker and lifter

22. Recycling machine

23. Dust collector

24. Water cooling tower

25. Packaging machine shrink tunnel
